

William Patric Poston

(757) 633-9689 | willpatpost@gmail.com

SUMMARY

A software engineer and Computer Science graduate with a Data Science minor, experienced in full-stack software development, data-driven applications, and systems engineering.

EXPERIENCE

Graduate Research Assistant, ODU Research Foundation

May 2026 - Present

- Assisting two different professors within their respective research while I am obtaining my masters' degrees (Computer Science and Data Science with a concentration in AI and Machine Learning).

Software and Systems Engineer Intern, KBR

June 2025 - August 2025

- Supported Test & Evaluation of satellite communications systems for the US Air and Space Force's Nuclear Command, Control, and Communications (NC3) program
- Analyzed system behavior, identified failure points, and assisted in validating communication reliability under simulated operational conditions
- Collaborated with engineers and analysts in a high-security, mission-critical environment
- Obtained active Secret-level DoD clearance

LunaSat Engineering Team Lead, NASA

June 2022 - June 2023

- Selected to lead a 10-person multidisciplinary engineering team for NASA's Artemis II LunaSat project
- Integrated hardware and software components and validated data transmission to Mission Control by designing, programming, and testing spacecraft sensor systems to collect and transmit lunar environmental data (seismology, temperature, gravity, magnetic fields)

Software Engineering Intern, CoVA CCI

January 2022 - May 2022

- Collaborated autonomously within a project team of peers and successfully developed a subscription-based web extension product to protect users from malware and other cyber threats while educating them on the proper use of safe media and browsing practices
- First Place winner in the 2022 INNOVATE Cyber Competition, achieved continued stakeholder sponsorship for system operations

EDUCATION

Old Dominion University (ODU)

May 2026 - Present

- Master of Science (MS), Computer Science
 - GPA: 4.00/4.00

Old Dominion University (ODU)

May 2026 - Present

- Master of Science (MS), Data Science
 - Concentration in Artificial Intelligence and Machine Learning
 - GPA: 4.00/4.00

Old Dominion University (ODU)

August 2023 - December 2025

- Bachelor of Science (BS), Computer Science
 - Perry Honors College Graduate
 - Minor in Data Science
 - GPA: 3.55/4.00

Paul D. Camp Community College

August 2021 - December 2022

- Associate of Science (AS), Computer Science
 - GPA: 3.89/4.00

PROJECTS

Personal

- Crossworder November 2024 - Present
 - Developed an AI backtracking algorithm to solve and generate crossword puzzles.
 - The word set used is "ENWiktionary" which is the English Wikimedia Dictionary (10M+ entries)
 - Web version: <https://willpatpost.github.io/Crossworder>

Old Dominion University

- ItinerEase January 2025 - December 2025
 - A personalized itinerary generation service using scraped data and generative AI
 - Implemented a hybrid itinerary engine combining a preference-based scoring/ranking algorithm with an OpenAI library generation to produce day-by-day plans
 - Senior software engineering capstone course working in AGILE development
 - Website: <https://willpatpost.github.io/Itiner-Ease>
 - Application code repository: <https://github.com/jandraarias/f25-Copper>

GitHub: <https://github.com/Willpatpost> | LinkedIn: <https://www.linkedin.com/in/william-poston>

(757) 633-9689 | willpatpost@gmail.com

- Handwritten Digit Recognizer August 2024 - December 2024
 - A handwritten digit recognition application that uses a neural network implemented from scratch in Python
 - Includes a graphical user interface (GUI) built with Tkinter, allowing users to draw digits and predict their values, train custom models, or load pre-trained ones
 - Application code repository: <https://github.com/Willpatpost/Digit-Recognizer>

SKILLS

- **Languages:** Python, JavaScript, Java, PHP
- **Frontend:** React, Blade, HTML, CSS
- **Backend:** Laravel, Node.js, RESTful APIs
- **Cloud & DevOps:** AWS, Azure, Git, CI/CD
- **Data & ML:** Pandas, NumPy, Data Visualization, Machine Learning
- **Tools:** GitHub, GitLab, VS Code, Eclipse, MATLAB, Figma, Cursor
- **Practices:** OOP, TDD, Agile/Scrum, Data Structures & Algorithms

ACCOMPLISHMENTS

- 2022 INNOVATE Cyber award winner
